Annual Review Workbook

Reflect. Learn. Improve. Design your next year with intention.

By Ricky Recalcati

Welcome

Most people drift through the year.

The months pass quickly, goals slowly disappear, and before long another year is over without ever stopping to ask one important question:

“Am I actually moving toward the life I want?”

This workbook is designed to prevent that.

Instead of chasing more productivity, you'll spend a short amount of time understanding what happened over the last year, what mattered most, and what deserves your attention next.

Great years rarely happen by accident.

They happen through deliberate reflection followed by consistent action.
